

K-Love radio is my station of choice while working & at home. I believe this station is valuable in our community because of family based values. I do not want to see it bumped for LPFM stations. K-Love is supported by listener donations and it is important to me. I pay to listen to that station! It is the only one in our area with the music and format that I feel my entire family can benefit from. Please do not take our station away.
